DETAILED ACTION

Oath/Declaration

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:
The specification to which the oath or declaration is directed has not been adequately identified. See MPEP § 602.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 19-36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
4. Claims 19 and 30 contain the statement "an HTHP test according to the specifications of the American Petroleum Institute...5.3.2," which is improper claim subject matter and does not distinctly claim the subject matter of the invention. See 37 CFR 1.75 for proper claim formatting and content.

Allowable Subject Matter

5. Claims 19-36 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Verret (US 6976537) and Vollmer et al. (US 6100222) teach methods that include circulating drilling mud including an aqueous fluid, at least one fluid loss additive, and a bridging material. With respect to Vollmer et al., see especially col. 2, lines 8-22, and Examples 3 and 9. The references fail to teach the fluid loss additive concentration to achieve a HTHP fluid loss from drilling mud less than 2 ml/30 minutes and fracturing with the composition and continuing to drill the wellbore as called for in the claimed combination.
